| Period fo   | The MAILING DATE of this communication app<br>or Reply   | ears on the        | cover sneet with the c | orrespondence ad      | aress          |  |  |  |  |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  Status |  |                    |                        |                       |                |  |  |  |  |

Application/Control Number: 09/954,838

Art Unit: 3634

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9-11,13-17, and 21, drawn to a safety system, classified in class 182, subclass 187.
- II. Claim 18, drawn to a method of preventing injury, classified in class182, subclass 5.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product , as set forth in claim 9, can be used in a process not requiring a prusik hitch, and the process as claimed can be practice with a product not requiring a platform, as set forth in claim 21.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Application/Control Number: 09/954,838

Art Unit: 3634
